Environmental Policy

Ivor King (Civil Engineering Contractors) Ltd

Ivor King (Civil Engineering Contractors) Ltd is committed to protecting the environment, including the prevention of pollution, responsible use of resources, climate change mitigation and adaptation, protection of biodiversity and ecosystems where relevant to our activities, and continual improvement of environmental performance.

This policy is appropriate to the purpose and context of the organisation, including the nature, scale and environmental impacts of our activities, products and services.

We will consider environmental impacts from a life cycle perspective when planning and controlling our activities, including procurement and use of materials, energy and resources, transportation, construction activities, reuse, recycling and appropriate end-of-life management.

The organisation is committed to fulfilling its compliance obligations, including applicable environmental legislation, relevant codes of practice, contractual requirements and other requirements to which the organisation subscribes.

The organisation seeks to minimise waste arising, promote recycling, reduce energy consumption, reduce harmful emissions and, whenever possible, to work with suppliers who themselves have sound ethical and environmental policies.

An essential feature of our environmental management system is a commitment to its continual improvement to enhance environmental performance.

This is achieved by setting annual environmental improvement objectives and targets which are subject to regular monitoring and reviews. The objectives and targets are publicised throughout the organisation and all staff are committed to their achievement.

In order to ensure the achievement of the above commitments, the organisation has implemented an environmental management system which satisfies the requirements of ISO 14001:2015.

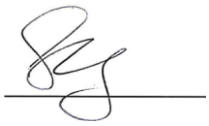

This Policy along with the obligations and responsibilities required by the environmental management system will be communicated to all employees and contractors working on behalf of the organisation.

Ivor King (Civil Engineering Contractors) Ltd recognises that its activities have environmental impacts, including a carbon footprint. We are committed to considering relevant environmental conditions, including climate change, resource availability and biodiversity, and to continually exploring and developing procedures, systems, working practices and technological innovations that reduce the environmental impacts generated through our activities.

This Policy is available to the public on request and will be reviewed periodically to ensure its continuing suitability.

UNCONTROLLED IF PRINTED

The company's environmental management structure forms part of our Integrated Management System which conforms to ISO 9001 (Quality), ISO 14001 (Environment) and ISO 45001 (Health & Safety).
